

KW T-22

Crate and circulating equipment cleaner for soft water

Applications

Purpose of use

Strongly alkaline for the machine washing of containers and for CIP cycle washing in soft water. KW T-22 effectively removes grease and protein. A cost-effective choice.

Properties

Clear liquid
Soluble in water in all conditions
No foaming
The product is rapidly biodegradable

Contains

Phosphonates	< 5 %
Sodium hydroxide	> 30%
Potassium hydroxide	5 - < 15%

pH in concentrate 14
pH in dilution 13,0 (1%)

Instructions for use

The KW T-22 container is connected to the automatic dispensing system of the dishwashing machine.
Dispensing 0,2 – 2,0%
Washing temperature +30 - +80 °C

Determining the concentration of the working solution by titration

Titration solution 0,2M H₂SO₄
Phenolphthalein indicator
50 ml of the working solution is titrated with the solution to the point of colour change (red becomes colourless)
Formula: titration solution [ml] × 0.093 = % KW T-22

Use a dosimeter/pump.
