## KW Fresh Tropical

Lightly acidic cleaner

Applications/work methods

### Purpose of use

A mildly acidic cleaner for maintenance cleaning of sanitary facilities. Suitable for use in social, sports, swimming pool, spa, sauna and sanitary facilities. KW Fresh can also be used in hot sauna rooms.

KW Fresh is also suitable for construction cleaning, binding heavy concrete dust. When used regularly, KW Fresh prevents rust, copper, lime and other deposits from adhering to the surfaces to be cleaned. KW Fresh helps to avoid the use of strong acidic substances and keeps surfaces bright and clean all the time. The use of KW Fresh is therefore recommended on a regular basis, especially where there are issues with the formation of deposits.

### Properties
